Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 12-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. With respect to base claim 12, line 15, "said cinch" lacks antecedent basis. In line 6, "said brace housing" lacks antecedent basis. Also with respect to claim 16, line 3 "said lower housing" lacks antecedent basis.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 12-14 are rejected under 35 U.S.C. 102(e) as being anticipated by Forster et al. (6,599,298). Forster et al. disclose, in figures 14-19 and 21 and in col. 7, line 30 to col. 8, line 45, a method of dispensing a medical clip as claimed, including, inter alia, the application of an elongated medical clip dispensing device with a pair of

Art Unit: 3731

closable jaws (92) with cam surfaces (104), a brace housing (22), a movable cinch housing (32), a clip (84), and a pusher member (112) with a pair of upstanding rails (114).

Allowable Subject Matter

5. Claims 1-11 are allowed.

6. The following is an examiner's statement of reasons for allowance: None of the prior art of record, alone or in combination, discloses a medical clip dispenser apparatus with, inter alia, an elongated support beam, a movable hollow cinch with a pair of jaws, an elongated pusher having a generally cross-shaped member on a distal end thereof, where the cross-shaped member slidably engages a shoulder track on the jaws and where the member slides between the jaws as they spread apart.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

7. Claims 15-18 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

8. The following is a statement of reasons for the indication of allowable subject matter: None of the prior art of record, alone or in combination, discloses a method for dispensing a medical clip that includes, inter alia, moving a cinch housing with respect to a brace in order to open jaws between the brace housing and the cinch housing and

a pusher member, where a pin is arranged on an intermediate portion of each of the jaws and the cinch has a pair of cam tracks for engagement with the pins and where the brace has an elongated biasing spring that has a bifurcated proximal end aligned with the pusher member.
